ISRAEL IS
TELLING
THE TRUTH
?

# The Palestinian Holocaust: Dismantling Israel's Narrative of Truth

## Introduction: The Inversion of Reality

The billboard message proclaiming "ISRAEL IS TELLING THE TRUTH" followed by an exhaustive list of organizations allegedly "lying" represents the most sophisticated propaganda operation in modern history. This analysis will demonstrate that the evidence overwhelmingly supports the exact opposite conclusion: Israel is systematically lying about its actions in Gaza, while the international community, medical professionals, human rights organizations, and Palestinian witnesses are documenting the truth of an ongoing genocide.

## I. The International Court of Justice: Legal Authority vs. Israeli Denial

## ICJ Provisional Measures and Israeli Non-Compliance

The International Court of Justice has issued multiple binding orders regarding Israel's conduct in Gaza, directly contradicting the billboard's claim that the ICJ is "lying":

- January 26, 2024: The ICJ ordered Israel to take measures to prevent acts of genocide against Palestinians in Gaza and to ensure humanitarian assistance
- May 24, 2024: The ICJ ordered Israel to immediately halt its military offensive in Rafah and ensure unimpeded humanitarian access
- July 19, 2024: The ICJ declared Israel's occupation of Palestinian territories illegal and ordered Israel to end its occupation immediately

Israel's response: Systematic non-compliance with all ICJ orders while continuing military operations that the Court determined posed a plausible risk of genocide.

## The Court's Findings on Palestinian Rights

Former ICJ President Joan Donoghue clarified that the Court found Palestinians have "plausible rights to protection from genocide" and that Israel's actions posed a real risk of irreparable harm. The Court's rulings are legally binding and represent authoritative interpretations of international law.

# II. The UN and International Organizations: Evidence-Based Reporting

## UN Death Toll Verification

The UN's casualty figures are based on rigorous verification processes:

- UN Human Rights Office verification: 70% of verified Palestinian deaths in residential buildings were women and children
- Gaza Health Ministry accuracy: Multiple independent studies confirm the reliability of Palestinian casualty reporting
- Underreporting, not overreporting: A peer-reviewed study published in The Lancet found that Gaza's Health Ministry underreported deaths by 41%, estimating 64,260 deaths from traumatic injury compared to the ministry's 37,877 figure

## UNRWA: Independent Investigation Results

Contrary to Israeli claims, independent investigations of UNRWA found:

- No evidence for Israel's claims about widespread Hamas infiltration of UNRWA
- 9 out of 19 cases: Insufficient evidence to support allegations of UNRWA staff involvement in October 7 attacks
- Only 9 cases: Had evidence that "might indicate" involvement, but this was never authenticated or corroborated

# III. Medical Professionals: Eyewitness Testimony of War Crimes

## Gaza Doctors' Testimonies

Palestinian medical professionals have provided detailed, consistent testimonies about Israeli war crimes:

- Dr. Issam Abu Ajwa: Surgeon dragged from operating room by Israeli soldiers, tortured in detention, with soldiers threatening to ensure he "never perform surgery again"
- Dr. Mohammed Abu Salmiya: Al-Shifa Hospital director arrested and tortured for seven months, describing systematic abuse designed to break medical professionals
- Over 1,000 medical professionals killed: The WHO reports systematic targeting of healthcare workers

## International Medical Witnesses

International doctors working in Gaza have documented systematic targeting:

- Dr. Nick Maynard: British surgeon who witnessed children dying in agony without morphine, describing how Israeli actions prevented proper medical care
- Dr. Zaher Sahloul: Chicago physician who documented psychological trauma in children, with one child asking "what future?" when asked about his aspirations

# IV. Israeli Soldiers' Confessions: Direct Evidence of War Crimes

## Systematic Killing Orders

Israeli soldiers have confessed to receiving explicit orders to kill civilians:

- Yotam Vilk: Israeli officer who witnessed at least 12 murders of unarmed Palestinians, stating soldiers were ordered to "shoot any unauthorized individuals"
- "Kill zone" testimonies: Multiple soldiers described Gaza's buffer zone as a "kill zone" where anyone could be shot on sight
- Systematic destruction: Soldiers ordered to "destroy everything" in Gaza, describing the result as "Hiroshima"

## Breaking the Silence Documentation

The Israeli organization Breaking the Silence has documented:

- Widespread looting and destruction: Soldiers systematically burning homes that posed no military threat
- Use of Palestinian human shields: Israeli soldiers using Palestinians as human shields "at least six times per day"
- Indiscriminate killing: Soldiers describing how they shot civilians for carrying bags or approaching aid distributions

# V. Palestinian Hostage Testimonies: Evidence of Torture and Abuse

## Systematic Torture in Israeli Detention

Palestinian hostages released from Israeli detention have provided consistent testimonies:

- Dr. Hussam Abu Safiya: Kamal Adwan Hospital director tortured in Israeli custody, beaten and denied medical treatment

- 162 medical workers: Still detained in Israeli custody without charges, with documented evidence of torture
- Systematic sexual abuse: Palestinian detainees reporting sexual violence and systematic humiliation

## International Documentation

- Amnesty International: Documented systematic torture of Palestinian detainees, including severe beatings and sexual abuse
- Physicians for Human Rights: Detailed report on torture of medical workers from Gaza
- Save the Children: Found 86% of Palestinian child detainees experienced physical abuse

# VI. The Gaza Death Toll: Scientific Verification

## Peer-Reviewed Studies Confirm Underreporting

Multiple independent studies have validated Gaza's death toll:

- The Lancet study: Found 41% underreporting of deaths, with actual figure of 64,260 deaths from traumatic injury
- Airwars verification: Confirmed 3,000 names from Gaza Health Ministry's list through independent verification
- Johns Hopkins study: Concluded Gaza Health Ministry's death tolls were accurate

## U.S. Government Acknowledgment

Despite public skepticism, the U.S. State Department:

- Cites Gaza Health Ministry figures in its own internal reports
- Assistant Secretary of State: Told Congress the death toll was "very high, frankly, and it could be that they're even higher than are being cited"

# VII. Hospital Attacks: Systematic Targeting of Medical Infrastructure

## Documented Hospital Bombings

International investigations have documented systematic attacks on hospitals:

- Al-Shifa Hospital: Bombed repeatedly, with CNN analysis showing evidence of Israeli tank rounds and precision-guided munitions

- Al-Ahli Hospital: Bombed six times, with documented evidence of Israeli strikes
- 83% of hospitals: Had Israeli 2000-pound bomb craters within 800 meters, with 9 hospitals having craters within the 360-meter kill radius

## Harvard Study on Hospital Targeting

A Harvard study found Israel systematically dropped 2000-pound bombs near hospitals:

- 600 bombs analyzed: One-third were within dangerous proximity to hospitals
- Systematic pattern: Evidence of deliberate targeting of medical infrastructure

# VIII. World Central Kitchen: Evidence of Deliberate Targeting

## Systematic Attacks on Aid Workers

World Central Kitchen has been repeatedly targeted by Israeli forces:

- April 1, 2024: Seven WCK workers killed in coordinated drone strikes on three vehicles
- November 30, 2024: Three more WCK workers killed in Israeli strike
- 224 humanitarian workers killed: Including 179 UNRWA employees

## Israeli Military Acknowledgment

The Israeli military's own investigation revealed:

- Systematic failures: Multiple targeting errors and rule violations
- Deliberate targeting: Three successive strikes on clearly marked aid vehicles
- Pattern of targeting: Repeated strikes on the same organization despite coordination

# IX. Palestinian Christians: Witnesses to Genocide

## Christian Testimonies from Gaza

Palestinian Christians have provided detailed testimonies contradicting Israeli claims:

- Suhail Abo Dawod: 18-year-old Christian documenting life under bombardment at Holy Family Church
- George Anton: Caritas Jerusalem director describing systematic targeting of Christian communities
- Rev. Munther Isaac: Palestinian pastor documenting the killing of Christian civilians, including a 70-year-old music teacher shot by snipers and run over by tanks

## Church Bombings and Christian Casualties

- St. Porphyrius Church: One of the oldest churches in Christianity, bombed by Israel killing 18 people including 9 children
- Christian population decimated: Half of Gaza's 1,000 Christians killed or forced to flee
- Systematic targeting: Snipers shooting Christians moving between church buildings

# X. B'Tselem and Human Rights Organizations: Documented Evidence

## B'Tselem's Systematic Documentation

The Israeli human rights organization B'Tselem has documented:

- Systematic apartheid: Comprehensive documentation of Israel's apartheid system
- Torture testimonies: 25 documented cases of Palestinian abuse by Israeli soldiers
- House demolitions: Database of thousands of Palestinian structures destroyed

## International Human Rights Consensus

- Amnesty International: Concluded Israel is committing genocide in Gaza
- Human Rights Watch: Documented systematic war crimes and attacks on civilians
- UN Human Rights Office: Verified that 70% of Palestinian deaths were women and children

# XI. The Human Shields Narrative: Systematic Debunking

## No Evidence of Hamas Human Shields

International investigations have consistently found no evidence for Israeli claims:

- Amnesty International: Found no evidence of Hamas using human shields during previous conflicts
- Human Rights Watch: No evidence of human shields in 2009 Gaza conflict
- UN November 2024 report: Israel "does not provide substantial evidence" for human shields allegations

## Israeli Use of Human Shields

Meanwhile, extensive evidence documents Israeli use of human shields:

- Breaking the Silence: Documented Israeli soldiers using Palestinians as human shields "at least six times per day"
- AP investigation: Found "widespread" use of Palestinians as human shields by Israeli forces
- Video evidence: Israeli soldiers tying wounded Palestinian to jeep hood for protection

# XII. The Pattern of Israeli Deception

## Systematic Lying About Military Targets

Israeli military claims have been repeatedly debunked:

- Al-Shifa Hospital "command center": Media analysis found Israeli claims "unconvincing" with no evidence of the claimed massive underground complex
- School bombings: Repeated claims of "terrorist" targets in schools with no evidence provided
- Aid worker killings: Claims of "terrorist" targets repeatedly proven false

## Manipulation of Evidence

- Fabricated recordings: Israeli claims of Hamas communications frequently debunked
- Misleading imagery: Systematic use of decontextualized photos and videos
- False timeline claims: Repeatedly debunked assertions about October 7 events

# XIII. The 146 Countries: International Law and Moral Authority

## UN General Assembly Voting Record

The 146 countries supporting Palestinian rights represent:

- 75% of UN membership: Overwhelming global consensus on Israeli violations
- Consistent legal interpretation: Support for ICJ rulings and international law
- Moral authority: Representing the vast majority of humanity

## International Legal Consensus

- ICJ advisory opinion: Declaring Israeli occupation illegal with overwhelming support
- UN resolutions: Consistent condemnation of Israeli actions
- International criminal law: Growing consensus on war crimes charges

# Conclusion: The Truth Inverted

The evidence overwhelmingly demonstrates that Israel is systematically lying about its actions in Gaza, while the international community, medical professionals, human rights organizations, and Palestinian witnesses are documenting the truth of an ongoing genocide.

The organizations listed as "lying" on the billboard—the ICJ, UN, WHO, medical professionals, human rights groups, and Palestinian witnesses—have provided documented, verifiable evidence of systematic war crimes, genocide, and crimes against humanity.

Meanwhile, Israeli claims have been repeatedly debunked by:

- Independent investigations
- Peer-reviewed studies
- International legal bodies
- Medical professionals
- Israeli soldiers themselves

The billboard represents the ultimate inversion of truth: It accuses truth-tellers of lying while defending those committing documented atrocities. The evidence is clear, comprehensive, and overwhelming—Israel is conducting a genocide in Gaza while systematically lying about its actions to the world.

The international community's documentation of these crimes does not represent "lying"—it represents the moral obligation to bear witness to genocide and demand accountability for crimes against humanity. History will judge those who stood with the truth-tellers against those who enabled and defended the systematic destruction of Palestinian life.
